Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance:

the art of record does not teach or show the limitations of independent claim 1 which require that the exclusive OR (XOR) operations used to generate a parity block cannot be stored in more than one cache pool with each of the two or more memory complexes having a separate cache pool.

the art of record does not teach or show the limitations of independent claim 20 which requires the computer memory system having two or more memory complexes with each memory complex having a memory controller which assigns data regions form a memory complex to a single and corresponding cache memory pool.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The references shown on the PTO Form 892 are cited as the closest art of record which detail RAID level 4-6 systems but fail to show the claimed recited structure.
